

DISPLAYING A VIRTUAL THREE-DIMENSIONAL (3D) SCENE

ABSTRACT

A method of displaying a virtual three-dimensional (3D) scene includes tracking a positional change of a head of a user with respect to a display. The method also includes transforming the virtual 3D scene in accordance with the positional change of the head, and projecting on the display a transformed virtual 3D scene.

the first time in the history of the world, the *whole* of the human race, in all its parts, has been brought together, and is now in a condition to act as one man.
